

ONE THOUSAND GREEKS ARE READY

They Will Leave New York in a Short Time.

ATLANTIS FUND HAS REACHED \$5,000

CONTINGENT FROM CHICAGO ALSO READY TO SAIL.

Fighting Has Been Renewed at Damask, Which is Being Cannonaded by a Greek Brigade—Edhem Pasha Said to Be Following the Example of Weyler in Suppressing All Dispatches—King George Says the Chastisement of Europe Has Begun.

New York, April 21.—It is likely that 1,000 Greeks will soon sail to join the forces that are fighting the Turks. Negotiations for a suitable vessel are in progress. The steamer will sail under the American flag, direct to Athens.

The cost of the expedition will be borne by the National League of Greece, which has members in nearly every part of the world. Salon L. Vlasto, editor of the Greek newspaper Atlanta, said that the Atlanta fund now had \$5,000 sent in by Greeks to aid in sending volunteers to Greece.

"Money is still pouring in," he continued. "We will decide today or tomorrow whether to charter a steamship or use the money in aiding Greeks who want to go back and battle for their country, in securing passage by various lines. Twenty-two sailed in a White Star steamer, Cevada, and a large number will go by the French line on Saturday.

Constantine is Sanguine. Athens, April 21.—Midnight.—Crown Prince Constantine telegraphs from Larissa, the headquarters of the Greek forces in Thessaly, that he is confident of success. "We have kept all our positions and the situation today is excellent. Every road by which the Turks can descend into the Thessalian plain has been secured by the concentration of our troops. I cannot wait at greater length now. I am fighting myself, so is Prince Nicholas."

As Bad as Weyler. Paris, April 21.—A dispatch to the Times from Constantinople says that Edhem Pasha, the Turkish commander-in-chief, has telegraphed to the Porte from Thessaly that two divisions under Mustafa Kemal Pasha and a detachment of 10,000 men are now pursuing the Greek forces, who are in full retreat. Edhem Pasha also reports that this division has arrived within 100 kilometers of Larissa. He adds that his troops have commenced the investment of Larissa and that Mustafa Pasha and Enver Pasha are endeavoring to capture it within three days.

Suspense at Athens. Athens, April 21.—The public suspense here tonight is terrible, owing to the lack of definite news. The government has received telegrams from Larissa throughout the day urging the commander-in-chief to return to the front. The Greek troops are being exhausted by the incessant Turkish attacks.

All the shops were closed today while prayers were being offered in the churches for the success of the Greek forces. Every nerve is being strained to send all available men to the front. The police guard and the gendarmes will go tomorrow to reinforce the army. The Greek volunteers are being sent to the front from all parts of the country. In Thessaly the whole population is being armed and made ready. Next week thousands will start for the frontier from provinces long famous for the finest quality of peasant fighting men.

Vassos Has a Visitor. London, April 21.—A dispatch to the Times from Greece says that the Italian consul in Thessaly is endeavoring to induce the Italian volunteers to return home. He had a long interview with Colonel Vassos, who said he could not control the volunteers and that he was endeavoring to take some action calculated to lead to serious complications. The Italian consul gathered the impression that Vassos was endeavoring to induce the volunteers to return home.

Edhem Wants More Men. Constantinople, April 21.—The sitting of the military commission has been continuous since yesterday at the Yildiz Kiosk. It is reported that Edhem Pasha has asked for 40,000 reinforcements, and that orders have been sent to Salonica to hasten the dispatch of the reserves to the front. The mobilization of 40 additional battalions has been decreed, and the idea that the forces of Edhem Pasha would have a military promenade to Larissa has already been abandoned.

Telegrams received from the ports from the far western provinces show that the Albanian irregulars are devastating the country in many localities. The local authorities are powerless to restrain them.

An imperial trade has been issued ordering the Turkish fleet to avoid a battle at sea and remain under the protection of the fortifications.

Chicago Greeks Are Loyal. Chicago, April 21.—Over 1,200 Greeks at a mass meeting last night resolved to do all they can to aid their native country in the war with Turkey. Amid great enthusiasm 400 of them signed a muster roll and were equipped to be ready to start for New York tomorrow afternoon. From all sources came help to pay the passage of the volunteers. Over \$1,000 being added to the \$1,000 already in the war chest of the central committee.

Fighting at Damask. Athens, April 21.—7 p. m.—Fighting has been renewed at Damask, which is being cannonaded by a Greek brigade advancing from Bouzahr. The Turks have occupied the post of Ligeia and Karaisko, which are strategically important while the Greeks have advanced and occupied the Stali hill.

Official Turkish Dispatch. Washington, April 21.—The Turkish legation has received an official dispatch from Constantinople as follows: "The village of Kriekom has been occupied by the imperial troops. The village of Kriekom has been occupied by the imperial troops. The village of Kriekom has been occupied by the imperial troops."

GREEK WOMEN APPEAL

Circular to Their Sex in the Old and the New World.

STARBEAMS.

Kansas City Star: A word to the wise is sufficient, and surely every woman in France about 1890 would manage to do it herself, and with her husband's every year.

The unity between Mrs. Leese and her husband, who gave her the explanation of the domesticity of the men's name.

The celebrated German physician who said: "There is nothing so good for the mind of a man as the outside of a woman."

The appeal was promulgated immediately after the outbreak of the war. Donations for the fund of the Union of Greek Women, who have in charge the Greek Red Cross, can be forwarded direct to the headquarters of the Union of Greek Women, at Athens, or to Salon L. Vlasto, editor of Atlanta, 21 Stone Street, New York, who has been authorized to collect funds and organize committees throughout the United States.

Russia Applies to the Sultan. Berlin, April 21.—It is reported here tonight in well informed circles that the Russian government has asked permission of the Sultan to allow Russian troops to pass through the Dardanelles. The Russian fleet is also ready to start under orders.

Chastisement—Europe. Paris, April 21.—A correspondent of La Journal at Athens has telegraphed with King George of Greece, at the palace yesterday. His majesty is quoted as saying that he believed to the last moment that peace would be maintained and did his utmost to bring about a pacific settlement of the matter.

Edem Suppressing News. London, April 21.—Commenting upon the absence of definite news today from Larissa, the headquarters of the Greek forces in Thessaly, the Daily Mail says it has received a private telegram from one of its correspondents on the scene of hostilities indicating that Edhem Pasha is suppressing all dispatches.

This correspondent adds: "The whole situation appears changed by the treaty with the Greeks. The Greeks are holding Revent pass, whereby they may possibly turn Edhem Pasha's position into a trap for his communication with Larissa."

TROUBLE BREWING OVER COMMISSIONS PAID BROKERS.

The Muddle Over Rates For the Christian Endeavor Convention—The Latest by Wire—Local Notes.

Portland, Ore., April 21.—United States Judge Gilliam, in chambers this morning, issued a deficiency judgment and decree in the foreclosure suit of the Farmers' Loan and Trust company of New York vs. Oregon Railway & Navigation company, Utah Short Line etc., the amount of the judgment being \$3,965,000.

The document, in substance, is as follows: It appearing to the court that from the proceeds of the sale of the property of the defendant company there has been paid upon the judgment and decree rendered in the above entitled case on Aug. 18, 1895, and applied to the payment upon the bonds and coupons of the Oregon Railway & Navigation company secured by the mortgage foreclosed in this suit, with interest as specified in the final decree herein rendered, Aug. 10, 1895, the sum of \$3,427,250 paid on July 19, 1896, the date of sale of said mortgage, and the sum of \$527,750 made and paid by the defendant, and that no other payment has been made, and it further appearing that the \$3,427,250 has been distributed among the holders of the bonds and coupons of the mortgage foreclosed in the ratio of \$100 upon each \$1,000 bond, has been paid, and the court now finds that after deducting therefrom the sum of \$3,427,250 there remains due and unpaid on account of said judgment the sum of \$537,750. It is ordered that the Farmers' Loan & Trust company recover from the defendant the said sum of \$537,750, and that execution lie therefor.

The C. E. Rates. Chicago, April 21.—Considerable bad feeling was developing among western roads over the Christian Endeavor association business. The understanding between the roads was that the Christian Endeavor association would be paid for the use of the roads for the purpose of carrying out their work. The roads were to be paid for the use of the roads for the purpose of carrying out their work.

Along the line of the Illinois Central railroad in Chicago clocks are an unbroken line of timepieces. Many families arise at 7:15, as they call it, and get ready for the day. The ringing of the bell is their alarm clock. The ringing of the bell is their alarm clock. The ringing of the bell is their alarm clock.

Woman teachers and girl scholars were of small account in New York in early days. Girls, however, attend the public schools. We find Matthew Hilder, in his history of New York, that he has been teaching in New York for 20 years. He has been teaching in New York for 20 years. He has been teaching in New York for 20 years.

An accident occurred on the Union Pacific yesterday which delayed the going to Park City from arriving until 4:30 p. m. The main pin of the locomotive, to which the driving rod is attached, broke between Couville and Elgin. The train was stopped for some time. The train was stopped for some time. The train was stopped for some time.

The selection of R. F. Choate as general freight agent for the Union Pacific at this point has been a surprise to the local officials of that road as well as to the Short Line people. While Mr. Choate has not yet signified his acceptance of the appointment, it is reasonably certain that the matter was previously arranged between Mr. Munroe and Mr. Choate. It was thought that W. L. Lathrop would receive the appointment until the moment when private information received here from Omaha dispelled that idea.

How to Plant and Cultivate Apples. There are several things expedient in the outset in connection with the business of planting and cultivating apples. writes W. L. Bash in the Louisville Home and Farm. Be sure, in selecting the site for an orchard, that you take the very best land you have, that is, if the best land you have is good for producing fruit trees. To set out an orchard on a rough piece of land entails too much work in order to keep up the orchard, and should be avoided whenever it is possible, as the expense attached thereto will in most cases exceed the profit. In preparing the ground for planting, first plow the land and get it in a perfect state of cultivation so far as possible, being free from weeds and other encumbrances. Then lay the ground off in rows, north and south, east and west; I would prefer the rows, where the land is of good quality, to be 20 feet apart each way. If the land is of poor quality, 16 feet will do. If the land is otherwise, they may be set closer. If the land produces a vigorous tree, they will crowd each other when arranged closer than 20 feet, the branches will intermingle with each other, causing much inconvenience in gathering and thinning.

That Infant. Detroit Free Press: "Pa, does Mr. Smile burn candles at his house?" "No, my dear. Why do you ask?" "Well, I thought he was the other night that you couldn't hold a candle to grandpa."

It Worked Well. Detroit Free Press: "Ha, ha," laughed Swagback, who had seen Mr. Blazman display a muscular strength in his arm, "an errand. 'Ha, ha! Good way to dispose of him.' Make 'em do something! By the way, I wish you'd drop this letter in the box on the corner as you go home."

PINS BY THE BILLIONS.

A VIEW OF A PIN FACTORY IN OPERATION—INGENUOUS AND DELICATE MECHANISM EMPLOYED IN THE MANUFACTURE OF THE SIMPLEST OBJECT REQUIRED IN DAILY USE—MACHINES THAT TURN OUT THREE HUNDRED PINS PER MINUTE—EVEN MOUNTED ON PAPER BY MEANS OF MACHINERY—WOMEN MAKE THE BEST INSPECTORS AND SORTERS—WHAT BECOMES OF THEM ALL.

RECOMES OF THEM ALL.

(Copyright, 1897, The S. S. McClure Co.)

What becomes of all the pins? It is an old question and one that has never been answered. Even the celebrated Mr. Sherlock Holmes, who solves nearly all the most puzzling cases as easily as most of us read a primer lesson, has thus far hesitated to risk his reputation for infallibility by attacking this knotty problem. Take it in everyday life. Nobody ever willfully destroys or throws away a pin. On the contrary, all tradition is in favor of care in preserving these useful little articles. The catchism, sacred relic of youthful days, enforced the eighth commandment on our minds by telling us "It is a sin to covet thy neighbor's wife."

Spread the roots out well before throwing in the dirt, making sure to leave none turning up. Do not cut the roots off at the base, but cut them off at the top, so that they will grow again. The roots should be cut off at the top, so that they will grow again. The roots should be cut off at the top, so that they will grow again.

The first of these lines is wide and end is equally strong. The first of these lines is wide and end is equally strong. The first of these lines is wide and end is equally strong. The first of these lines is wide and end is equally strong.

The ground should be packed firm around the roots by using some suitable implement for tamping. The ground should be packed firm around the roots by using some suitable implement for tamping. The ground should be packed firm around the roots by using some suitable implement for tamping.

A PIN MACHINE. See a pin and pick it up. And all the day you'll have good luck. See a pin and pick it up. And all the day you'll have good luck. See a pin and pick it up. And all the day you'll have good luck.

This may be a little weak in grammar, but the point is obvious enough. Every student of household superstition knows that a pin stuck in a wall, or a pin lying with the point toward one means bad luck, while the opposite end is equally strong. The first of these lines is wide and end is equally strong. The first of these lines is wide and end is equally strong.

Next comes the sticking room, where the pins are mounted on papers, as they are to be seen on the shelves of your goods stores. It is not an very humble service, but it is a very important one.
